

Did You Know Con-Test Has Expanded?

Over the past 20 years, Con-Test Analytical Laboratory has been consistently adding space as needed to accommodate the latest instrumentation and our growing clients.

We recently added a service center in Stratford, CT to better service our Southwest CT and Metro NYC clients.

Sample Drop Off Instructions

- Con-Test's door is located at SW (rear right) corner of the building
- Code for lock box next to exterior entry door as well as our interior door touchpad (call Con-Test for code)
- Please make sure samples are secure and the chain of custody is filled out completely and signed.
- Make sure samples are refrigerated or on ice. Coolers are available and ice is in the freezer.
- Alert your Con-Test Project Manager at **413-525-2332** with time of drop off, required TAT and any hold time requirements. If samples are in a cooler please identify.
- If you are getting media please sign-off on the media sheet with what you received.

* Please note most day samples will be picked-up to be transported to the lab by 3:30 PM. If you have any questions please call your Project Manager.

Headquarters

39 Spruce Street
East Longmeadow, MA 01028
(413) 525-2332
